NEWS NOTES

Portugal is the latest country to be visited by one of nature's catastrophes. In the hills just west of the Serra Da Estrela, Portugal's highest mountain ridge, were rendered helpless by a terrible rain and hail storm that wrecked homes, vineyards, crops, and killed many sheep.

There was relocating in the Jaap Alberts, home of James F. Fahy on May 10. He was working for the fact that the United States Government had dropped extradition proceedings against him. Twenty-four years ago he had been sentenced to life imprisonment where he was serving a life sentence for train robbery from which he escaped to Canada and lived a "straight" life. Fahy protests his innocence of the robbery.

Many Alberta cowboys and cowgirls are now on their way to London, England, where they will perform next month in a musical review.

The Calgary Albertan entered the evening news field Wednesday. Last issue of the morning paper was published Tuesday.

Sixty thousand dollars will be slashed from the payroll of Calgary teachers. The reason is the probability of keeping the schools closed in September, the new content because of lack of funds.

The advanced warm weather is bringing in early hatch grasshoppers. Alberta is also early opening of a nudist colony near Victoria, B. C.

John Dillinger, American fugitive from justice and labelled "Public Enemy Number One" by some authorities, it still at large—unless the kidnappers have nabbed him.

Government experts in Great Britain are having a study meeting of methods to combat the encroaching Japanese in Manchuria. Tokyo comes word that the Japanese are considering counter-moves. "The wedge war" is getting fairly under way.

Protestant church authorities in Scotland are concerned over the trend of people away from church services, and are holding conferences for a revival of religious influence and a re-establishment of small rural chapels. This would result in transferring a substantial portion of the population from the cities to the countryside.

Interest in gliding, the flying of motorized aircraft, and flying resort in Calgary. The Calgary Glider Club was reorganized on Tuesday.

Reputation of debts, bankruptcy or controlled inflation are the three options facing Canada in regard to the financial situation. E. Spencer, U.F.A. member of the House of Commons for Battle River.

Withdrawal of American crop limitation plans is threatened by United States secretary of agriculture Waller under the wise growing nations can reach an agreement.

A further southward extension of Turner Valley's oil producing area is predicted with the striking of a thick oil zone in the Lethbridge-Sarco well early this week. Hitler, to consider beyond the oil-producing area, has spoken up. The new managers expect to install new equipment before the rush season begins next fall. In the meantime they are taking out cost for the summer trade.

Hussar All Set For Stampede Thurs. May 24

Bucking Contests, Roping, Horse Races Billed for Victoria Day Program—Children's Sports in Morning—Dance at Night.

Whoopie! Let 'er buck! It's stampede time in Hussar again. It's the annual Victoria Day, the day of the big annual event.

With a string of wild-eyed broncos, a team of fast-riding horsemen, the hard-working stampede committee is prepared to put on a program of bucking contests, roping and racing designed to please the most fastidious lover of horse races and fast-paced contests.

And that is only a part of the day's program.

On Saturday morning a list of races, jumping, and other athletic events will be staged for the boys and girls. The school children of the Bassano District will be there to compete or cheer his pals on the big hillside.

One will be a horse and carriage race in the afternoon to cater to the refined tastes and amusement of the crowd.

Free admission to the horse races first prize \$75 second \$35 third \$15.

With feeding finished, and a national holiday on that date, the contestants had a snug program of dancing numbers.

The afternoon program starts at 1 p.m. Following is a list of events:

Bucking horse with association saddle first prize \$5; second \$5; third \$15.

Bareback bucking horse with loose saddle first prize \$15; second \$10; third \$5.

THE FACT FINDERS-- and Their Discoveries

The Week at Ottawa

by Dr. F. W. Gerishaw, M. P. M.

May 12, 1934

Early on Sunday morning Mr. Shokley passed away at the age of 75 years. His eager interest in life and public welfare was shown by the fact that she had been interested in many of the social and literary reforms being discussed.

On Monday I voted with the U.P.F.A. and the other members of the Conservative Party, and all the Conservatives I did this because I felt that an important part of the platform of the U.P.F.A. was right. The working of the recently proposed legislation of other nations such as Japan and Russia, will force British peoples to change the manner in which they do business with foreign goods.

The vote stood at the 11 to 17 which shows that sentiment in favour of very strict laws against foreign goods.

It is the opinion of the majority of the members have had to give up less than 20% of their British imports.

It looks as though the government is going to have a hard time getting the working of the new legislation that will result in more friendly national relationships.

It is the opinion of the members that the new goods cheaply as men work 12 hours a day and then Japan makes

goods worth 50¢ per hour.

Weed Experts Report On Saw Thistles

Line Elevators Distribute Booklet on Latest Methods of Eradication

The manner in which saw thistles reduce grain yields is shown in figures produced in a booklet dealing with the control of weeds in Canada. The booklet, which gives full details of eradication of this weed just completed by Dr. G. P. McTolistic, Professor of Agriculture, University of Manitoba, M. Sc. Assistant in weed research of the Agricultural College of the University of Manitoba, Winnipeg. The survey was conducted over a period of 15 years under the direction of, and financed by, the Northwest Grain Board. The results of the survey are being distributed this week at all county fairs.

The booklet deals with the plant, distribution in the West, origin of the weed, its spread, its spread by seed and root system, the manner of damage caused by saw thistles; tables showing the average reduction in yield of various crops growing at different distances from saw thistle plants; methods of control, the effect of cutting, the use of chemicals and growth of sweet clover in areas where it is not necessary to spray for saw thistles; and measures in combating saw thistles growth.

Farmers who are troubled with this weed and those who wish to keep their fields free from it are advised to obtain this booklet which is now available free of charge at all the county fairs. Booklets were recently issued by the Northwest Grain Dealers' Association, the Alberta Wheat Council and the less brought about by weeds in farm areas of the west.

Temperature of the air decreases gradually, up to a distance of about six miles from the earth.
